THE MULBERRY COLLECTION:

Our Mulberry range described in three words: luxurious, innovative, and durable. The soft-to-touch, cushioned carpet will accommodate any space with its composition of pioneering yarn technology.

Created with a thick pile for strength and comfort that means it always looks as good as the first day it was laid. You can relax with a luxurious texture underfoot and enjoy that walking in the clouds feeling… today and in the years to come

Made to your specific dimensions and requirements, this collection can be supplied as fitted carpet or as an area rug. We also offer various finishes, such as runners bound with either linen, cotton, leather or faux suede tapes.

The Mulberry range comes in a choice of six neutral colours. From the brilliant white 'Polar', which opens up even the smallest of spaces, to the opulent deep tones of 'Rhino' - there's a colour suited to every space.

Divine Luxury and Innovation…
