EATON SQUARE

WHISTLER COLLECTION

Whistler vinyl floors are not only waterproof, but ideal for underfloor heating and extremely durable. They are above all beautiful! With the greatest care we select the most exceptional varieties of wood from all over the world that faithfully reflect their character.

The Whistler collection offers bold, modern designs in line with the latest trends and enhanced by an innovative groove that transfers the wood grain to the edge of the panel just as in real wood.

- Strong & Reliable: Innovative Click Flooring
- Remarkable Thermal Stability: No Gaps at Joints
- Durability: Engineered for Long-Lasting Performance
- Quiet Comfort: Ensures a Silent and Serene Environment
- Anti-Scratch: 30% More Resistant Than Standard UV Coating
- Exceptional Quality: High-End & Luxurious Aesthetic
- Suitable for Residential and Commercial Spaces

EATON SQUARE

WHISTLER COLLECTION

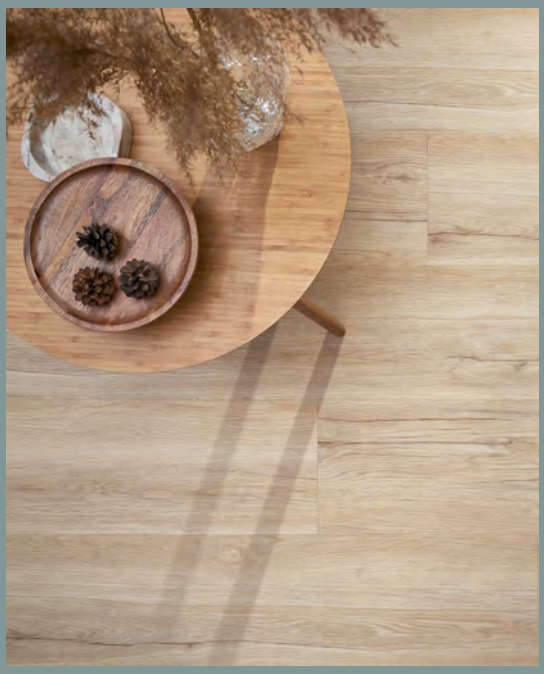

An innovative collection of vinyl panels manufactured with a mineral core. Despite their low thickness, they have the highest utility class 23/33, which allows them to be used not only in all residential areas, but also commercial spaces.

Whistler is also an innovative continuous design grout. A clear and deep four-sided joint that transfers the design from the surface to the chamfer between the panels, as in natural wooden boards. It emphasises the width of the panels - 229 mm, along with a bold, modern design.
