

MAR HALL HOTEL:

Bespoke Carpets and Rugs for a Five-Star Scottish Estate

Set within 240 acres of woodland on the banks of the River Clyde, Mar Hall is one of Scotland's most distinguished luxury hotels. Originally built as a grand Victorian mansion, the estate has been thoughtfully restored to combine its rich heritage with contemporary elegance, creating a destination where every detail contributes to the guest experience.

Eaton Square Flooring was proud to supply bespoke rugs and carpets throughout the hotel, creating flooring that complements the refined interiors while delivering the comfort, durability and craftsmanship expected of a world-class hospitality destination.

Bespoke Rugs for Every Guest Room

Each bedroom at Mar Hall has its own distinctive character, combining elegant furnishings, rich fabrics and carefully curated decorative details. To complete these luxurious interiors, Eaton Square Flooring produced bespoke Tahoe Deluxe rugs for every guest room.

Positioned beneath seating areas and at the foot of each bed, the rugs introduce softness, warmth and texture while helping to define the layout of the room. Their understated palette complements the hotel's sophisticated interiors, allowing the architecture, furnishings and decorative finishes to remain the focal point.

Beautifully crafted and made to exact specifications, every rug contributes to the calm, luxurious atmosphere that defines the guest experience throughout the hotel.

Bespoke Axminster for Public Spaces

Beyond the guest accommodation, Eaton Square Flooring designed and manufactured bespoke Axminster carpets for the hotel's event spaces, corridors and staircases.

These areas required flooring capable of withstanding constant foot traffic while maintaining the refined appearance expected of a five-star hotel. Bespoke Axminster offered the ideal balance of durability, comfort and design flexibility, allowing a consistent pattern and colour palette to flow throughout the building.

A subtle geometric design was selected to complement the hotel's elegant interiors without overwhelming the surrounding architecture. Across long corridors, sweeping staircases and expansive event spaces, the carpet creates visual continuity while adding warmth and softness to the grand Victorian interiors.

Designed for Luxury Hospitality

Luxury hotels demand materials that perform as beautifully as they look. Every carpet and rug supplied for Mar Hall was selected not only for its aesthetic qualities, but also for its ability to withstand the demands of a busy hospitality environment.

By combining bespoke design with exceptional craftsmanship, Eaton Square Flooring helped create interiors that feel welcoming, elegant and enduring—spaces where guests can relax in comfort while enjoying the unique character of this remarkable Scottish estate.

Craftsmanship in Every Detail

At Mar Hall, flooring is much more than a finishing touch. From bespoke Tahoe Deluxe rugs in every guest bedroom to custom-designed Axminster carpets throughout the public areas, every element was created to enhance the hotel's distinctive interior while respecting the heritage of the building.

The project reflects Eaton Square Flooring's expertise in delivering bespoke carpets and rugs for luxury hospitality, working closely with designers and hotel teams to create interiors that combine timeless design with lasting performance.
